Honeydew Directions

1. Keep this package in a cool dry place until ready to use.
2. Mix powder with warm water. You can apply using a sprayer, spray bottle, or watering can.
3. You may also apply powder in dry form over wet vegetation.
4. Choose an area of dense vegetation. Spray, or sprinkle over foliage.
5. Spraying a section of your garden is ideal. It is not necessary to spray the entire growing area.
